

Dear Friends of Preservation:

It is time for Quincy Preserves' 2016 membership drive!

Please join us again this year by renewing your membership, or if you're joining Quincy Preserves as a new member, welcome! It has been a good financial year for the group because of our strong community support. Whether funds are raised from our garden and house tours or from membership, the funds make a significant difference for local preservation in Quincy and Adams County. One of the group's most important goals is to put the funds we raise back into the community quickly, so ***your membership does make a difference***. Quincy Preserves supports a façade improvement program for commercial buildings, recognizes historic houses and buildings through plaques, offers scholarships to college students to encourage their interest in historic preservation, and provides modest financial assistance to nonprofit organizations undertaking preservation projects.

In 2016, "Behind Closed Doors" tours will be held once again, as well as the Garden Tour which was so popular this past June. The group is pleased to be offering a workshop in March on how to apply for façade grants, so watch Quincy Preserves on the web for the membership activities and tour and event dates which are to be scheduled for next year.

The membership form can be found at <http://quincypreserves.org/join/join-quincy-preserves/>. Please visit our website, www.quincypreserves.org, and LIKE us on Facebook for updates and special announcements. For additional opportunities, please email info@quincypreserves.org

Sincerely,

Cathy Ambler
Acting President
